The latest range is equivalent to about \$127-129 per tonne in the seaborne market.

## **Dalian Commodity Exchange**

The most-traded January iron ore futures contract on the exchange closed at 966 yuan (\$135) per tonne on Tuesday, up by 8 yuan from the previous closing price.

# Chinese HRC prices extend decline in absence of stimuli

### By Zihuan Pan - Tuesday 05 December

Spot prices for Chinese hot-rolled coil continued to edge down on Tuesday December 5, due to an absence of fresh stimulus measures from the country's government and a halting of gains in futures prices for raw materials, sources told Fastmarkets.

### Domestic

Fastmarkets' price assessment for steel hot-rolled coil domestic, ex-whs Eastern China (Shanghai) was 3,950-3,960 yuan (\$554-555) per tonne on Tuesday, down by 10 yuan per tonne from 3,960-3,970 yuan per tonne on Monday December 4.

The most-traded May HRC contract on the Shanghai Futures Exchange fell for a second straight day on Tuesday and ended at 3,971 yuan per tonne - the lowest closing price in three weeks.

The absence of new stimulus measures ahead of China's key economic meetings later in December failed to offer upward momentum to steel prices on the macroeconomic side, while a rally seen in steelmaking raw materials futures prices has ended, diminishing cost support to finished steel, sources said.

Top authorities of the Chinese government will gather for Political Bureau meeting on economic work and the annual Central Economic Work Conference in December, which will shed some light on the nation's economic polices for 2024.

The most-traded contracts for the key steelmaking raw materials - coke and coking coal - on the Dalian Commodity Exchange also slipped for a second

straight day on Tuesday, with the contract price for coke dipping by 0.35%, while that of coking coal dropped by 0.28%, respectively from their closes the preceding day.

Coke and coking coal prices hit the highest level in at least eight months in late November due to increased supply concerns after a series of fatal accidents forced local Chinese governments to step up safe checks across coal mines, according to market participants.

### Export

Fastmarkets calculated its steel hot-rolled coil index export, fob main port China at \$559 per tonne on Tuesday, down by \$3.33 per tonne from \$562.33 per tonne on Monday.

The extended decline in domestic spot and futures prices forced Chinese mills to cut their offers for HRC exports further on Tuesday.

Small, privately-owned mills offered 3mm SS400 HRC at \$557-565 per tonne FOB China on Tuesday, down from \$560-567 per tonne FOB on Monday.

Traders concluded deals at \$550-555 per tonne FOB for cargoes from a small, privately-owned mill in northern China on Tuesday, market participants told Fastmarkets.

Larger, state-owned mills set their offers at \$575-590 per tonne FOB China for 3mm SS400-HRC so far this week, widening downward from \$580-590 per tonne FOB a week earlier, because some mills lowered their offers amid poor trading.

Most traders and mills said that HRC export trading remained muted in recent weeks, likely because overseas buyers have yet to accept the recent sharp gains in Chinese steel prices.

### Market chatter

"Seasonally slowing demand is weighing on prices for finished steel on the fundamentals side, while finished steel prices are moving along with those for steelmaking raw materials in the near term. We should continue to closely monitor the developments on macro polices and prices for coking coal and iron ore," an industry analyst in eastern China said.

### Shanahai Futures Exchange

The most-traded May HRC futures contract on the SHFE closed at 3,971 yuan per tonne on Tuesday, down by 13 yuan per tonne from Monday's close of 3,984 yuan per tonne.

### Steel plate news

# Demand weakness weigh on China's steel plate export prices

#### By Alice Li - Tuesday 05 December

Chinese medium steel plate prices fell slightly in the week to Tuesday December 5 due to limited demand from oversea buyers. Some large steel mills slightly raised their offer prices for export medium plate, while a few private mills and traders lowered offers to attract buying interest, sources told Fastmarkets.

Fastmarkets' weekly price assessment for steel heavy plate, export, fob China main port was \$558-575 per tonne on Tuesday, widening downward from \$565-575 per tonne the week prior.

Demand weakness from buyers in the Middle East region and Southeast Asia have stopped Chinese exporters from raising their offer prices for medium plate exports this week, despite a slight increase in domestic steel prices, several sources told Fastmarkets.

"We have started maintenance on our three medium plate production lines in turns and take orders according to the schedule of maintenance, yet overall demand still remained limited," a steel producer in northeast China said.

Fastmarkets' weekly price assessment for steel plate domestic, ex-whs Eastern China was 3,940-3,960 yuan (\$552-555) per tonne on Friday December 1, narrowing upward by 40 yuan per tonne the previous week.

There were reportedly some bookings of Chinese medium plate cargoes to

Southeast Asian markets, but overall buying was focused on lower-priced medium plate from some private steel mills or traders, a Hong Kong-based trader said.

"Downstream demand is [weak], so it's difficult to conclude deals for cargoes with higher prices even from large steel mills," the Hong Kong-based source said.

There were multiple offers for export medium plates from China for promptdelivery, February and March shipment, sources told Fastmarkets.

"There were a few deals for prompt delivery done [this week] for export medium plate, yet deal prices were lower than \$580 per tonne FOB China," a Shanghai-based trader said.

Tradable prices for medium plate cargoes with prompt delivery were, in most cases, a bit higher than those for far-month shipped cargoes, sources said.

A large mill in Handan city, Hebei province raised its offer prices for medium plate by \$5 per tonne to \$580 per tonne FOB China with a February laycan, but another local private mill decreased its offers by \$5 per tonne to \$555 per tonne FOB China, while other offers shipped from China's Tianjin ports are about \$558 per tonne FOB China for the same material.

A seller based in the Middle East kept their offer price for February-loaded medium plate unchanged at \$575 per tonne, FOB China on Tuesday.

The offer for medium plate from a mill located in Inner Mongolia stayed unchanged at \$575 per tonne FOB China for March shipment cargoes.

The basic offer for some high-quality medium plate from South China also decreased by \$5 per tonne to \$615 per tonne FOB China.

## **Rebar news**

# Taiwanese mills pay higher prices for containerized scrap, expect further uptrend

By Tianran Zhao - Tuesday 05 December

Spot prices for steel scrap imported into Taiwan picked up further on Tuesday December 5. US suppliers targeted higher prices amid the global uptrend, according to market sources.

"Scrap prices have been going up in Turkey in the past week due to restocking needs. Taiwanese buyers are feeling pressure from price rises in the Turkish

market. They worry that the scrap prices may rise further, leading to higher production costs," a mill source in Taiwan told Fastmarkets.

"It is bad news for mill margins because prices of raw materials have been rising more quickly than finished steel selling prices," a trading source in Taiwan said. "Taiwanese mills tried to raise the rebar selling price in the past weeks to reflect the increase in costs but have felt resistance from end users."

On Monday December 4, a major electric-arc furnace steelmaker in Taiwan announced that it will keep both its rebar selling price and local scrap buy price unchanged this week. The prices now stand at NT\$19,100 (\$610) per tonne for rebar and at NT\$11,800 per tonne for domestic HMS 1&2 (80:20) scrap, according to market participants.

In the scrap import market, sales of US-origin containerized HMS 1&2 (80:20)

were heard at 378-380 per tonne CFR Taiwan on Tuesday, compared with deals at 375 per tonne CFR late last week.

The latest offers for such material were heard at 385 per tonne CFR Taiwan on Tuesday, with bids heard at 377 per tonne CFR.

Fastmarkets' twice-weekly price assessment for containerized steel scrap HMS 1&2 (80:20 mix) US material import, cfr main port Taiwan was \$378-380 per tonne on Tuesday, up by \$3 per tonne from \$375-377 per tonne on November 30.

Offers of Japanese H1:H2 (50:50) scrap were heard at \$385-392 per tonne CFR Taiwan in recent days, while bids were heard at \$380 per tonne CFR.

# China's domestic rebar prices stop sliding in favorable weather

### By Jessica Zong - Tuesday 05 December

Reinforcing bar (rebar) prices

Increased construction activity amid more favorable weather conditions led to and end of a downtrend seen in China's domestic rebar prices on Tuesday December 5, sources told Fastmarkets.

#### Domestic

Fastmarkets' daily price assessment for steel reinforcing bar (rebar) domestic, ex-whs Eastern China was 3,890-3,920 yuan (\$545-550) per tonne on Tuesday, unchanged from the preceding day.

Construction work was active on Tuesday in the favorable weather in most

regions of east China. Consequently, contractors bought rebar to meet their daily demand, sources said.

A trader in Shanghai said he sold 500 tonnes of rebar on Tuesday, unchanged from the preceding day.

A second trader in the city said his customers suspended procurement plans in the morning due to the price decrease in the futures market, but they resumed buying rebar in the afternoon when futures market picked up.

The local weather forecast indicated that the region's weather would remain clear for the coming days, leading traders to believe that demand over this period would remain robust, sources said.

#### Market Chatter

"Rebar prices are still under downward pressure because production costs are likely to decrease. Coking coal prices continued decreasing after more coal mines reportedly planned to resume production in short term. Trade houses will take the chance to request that rebar producers reduce prices," an industry analyst said.

### Billet

Fastmarkets' daily price assessment for steel billet domestic, exw Tangshan, Northern China was 3,620 yuan per tonne including value-added tax on Tuesday, down by 10 yuan per tonne from Monday December 4.

### Shanghai Futures Exchange

The most-traded January rebar futures contract closed at 3,870 yuan per tonne on Tuesday, down by 1 yuan per tonne from 3,871 yuan per tonne on Monday.
