A second Indian scrap trading source said that the extra \$50-60 per tonne of freight on scrap prices was “not going to work anywhere, and exporters would have to adjust their prices [downwards]”. The source added that difficulty in procuring containers in markets like India and Bangladesh could increase demand for bulk cargoes instead.

“If I’m relying on container scrap flows from the US East Coast and the EU, where am I going to get material now?” a US trader source said. The shortage of containerized material could push scrap prices upward across the board and increase demand for bulk cargoes, the source added.

**Aluminium**

Participants in the European aluminium market also remained watchful of the disruption, with some seeing higher offer levels in Italy, while many said that it was too early to perceive any substantial effect on trade flows or prices.

“It depends on how long it lasts,” one trader in the region said. “It could normalize if it’s just a short-term thing, but offers — especially for Middle Eastern [units] — are likely much higher in the region now,” the source added.

Fastmarkets assessed the aluminium P1020A premium, fca dp Italy at \$200-

230 per tonne on Tuesday, up week on week from \$200-220 per tonne; this is the first premium increase since March 2023.

Premiums in Italy were largely boosted on Tuesday by the recent strength in the Rotterdam market; some participants reported offers up to \$250 per tonne because of the effect on sentiment in southern Europe.

“It seems that the [Red Sea disruption] and news of UK sanctions against Russia are creating some short covering and tension. Traders are offering at \$20 [per tonne] higher than last week,” one Italian consumer said.

Others were less convinced about an effect in the market, saying that there are sufficient aluminium stocks in Europe to cover any short-term delays following months of declining premiums and poor regional fundamentals.

“It’s easy to say that there will be an impact, but I really think it’s too early to know,” a second trader said. “Unless it lasts for a long time, I think there is enough stock in Europe to avoid any real premium impact for now.”

A third trader said: “It seems a bit early — is the decision of the [shipping] liners definite or will they reevaluate? I hope there will be a solution. Two or three weeks more could affect the industry if there’s strong demand, but demand is not strong, and there are metal ingots in the ports.”

**Steel plate news**

**UAE steel scrap sellers struggling to raise prices amid slower international buying**

By Lee Allen - Tuesday 19 December

Weak buying appetite for ferrous scrap in the India and Turkey markets is hindering the attempts of sellers in the United Arab Emirates to raise their prices for the secondary material, sources told Fastmarkets.

Fastmarkets' steel scrap HMS 1&2 (80:20 mix) index, domestic, delivered UAE was calculated at 1,327.71 dirhams (\$361) per tonne on Tuesday December 19, down marginally from 1,330.88 per tonne week on week.

In one deal, around 2,000-3,000 tonnes of sheared HMS 1&2 (80:20) were heard sold at 1,325 dirhams per tonne delivered UAE this week, while shredded scrap was sold at 1,430 dirhams per tonne.

Last week, deals were heard at 1,325-1,335 dirhams per tonne delivered for the sheared HMS 1&2 grade, while shredded was sold at 1,430 dirhams per tonne and plate and structural at 1,300 dirhams per tonne.

Offers were heard at 1,350-1,375 dirhams per tonne, but there was less confidence that buyers would accept these levels this week.

"The local market is sideways, and local mills are not willing to pay higher prices," a seller source said on Tuesday.

A trading source said on Tuesday that offers were prevailing at 1,350 dirhams

per tonne, rather than the 1,375 per tonne level which was heard more commonly last week.

An Abu-Dhabi-based buyer source said last week that he could procure material from Abu Dhabi at 1,320 dirhams per tonne, while material from Sharjah was available at 1,350 dirhams per tonne.

The UAE's local market for rebar was also slow this week with buyers waiting for new domestic prices to be announced soon, sources told Fastmarkets.

The spread for Fastmarkets' price assessment for **steel reinforcing bar (rebar) domestic, exw UAE** over the **steel scrap HMS 1&2 (80:20 mix) index, domestic, delivered UAE** was 952.29-1,197.29 dirhams per tonne on December 19, down from 1,015.62-1,240.62 dirhams per tonne on November 21.

Another major issue facing UAE scrap and rebar prices is the importing of cheaper steel from other Middle Eastern nations, such as steel billets from Oman or Iran, according to market sources. But Iranian billet prices have warmed slightly recently with offers rising for Russia-produced materials.

Fastmarkets' weekly price assessment for **steel billet export, fob ports Iran** was \$470-472 per tonne on December 13, narrowing upward from \$464-472 per tonne on December 6.

## China's steel plate export prices largely stable amid increased raw materials costs, limited demand

By Alice Li - Tuesday 19 December

**Chinese steel plate prices remained largely stable in the week to Tuesday December 19, supported by the relatively high steel prices in China's domestic market arising from increased raw material costs, but capped by limited overseas demand, sources told Fastmarkets.**

Fastmarkets' weekly price assessment for **steel heavy plate, export, fob China main port** was \$565-580 per tonne on Tuesday, narrowing upward by \$3 per tonne from \$562-580 per tonne on December 12.

Several market participants said that some sellers have increased their export offers for China's export medium plates since last week, mainly due to the

higher domestic steel prices resulting from rising prices for steelmaking raw materials, including iron ore and coke.

For instance, Fastmarkets' weekly price assessment for **steel plate domestic, ex-whs Eastern China** was 4,020-4,030 yuan (\$564-565) per tonne on December 15, down by 10-20 yuan per tonne from 4,030-4,050 yuan per tonne on December 8. The price was assessed at 3,940-3,960 yuan per tonne on December 1.

A Shanghai-based trader said, however, that overall trading for China's export steel plate was limited, and some mills have stood firm on offers rather than raise their basic offers.

"Demand from the Southeast Asia is slow, and end users only can still accept low-priced medium plates from China," a Hong Kong-based trader said.

Some market sources in China expected restocking demand for steel products by large traders for reselling after the Lunar New Year holiday over February 9-18.

"However, overseas traders or end users usually procured [China's medium steel plates] based on the downstream orders, rather than building up stocks before the Chinese holiday," a mill source from southern China said.

The offer from a local private mill in Hebei province was \$565 per tonne FOB China for March-loaded medium plate, a Zhejiang-based trader said.

"There were some low-prices deals [of Chinese export medium plates] concluded last week to the Southeast market, but market became quiet early this week with a wait-and-see attitude," the same source added.

A seller based in the Middle East raised their offer price for medium plate to \$586 per tonne FOB China on Tuesday for February-loaded cargoes.

"Bids from buyers in the Middle East were limited, even bids with large gap to the offers were few," the same source added.

The offer for medium plate from a mill located in Inner Mongolia increased by \$5 per tonne to \$585 per tonne in China on Monday for March-shipment cargoes.

The basic offer for some high-quality medium plate from South China also increased by \$5 per tonne to \$620 per tonne FOB China.

### Rebar news

## UAE steel billet, rebar market slow; buyers wait for new domestic prices

By Serife Durmus - Tuesday 19 December

The market for steel rebar and billet in the United Arab Emirates was slow during the week to Tuesday December 19 because buyers were waiting for new domestic rebar prices to be announced soon, sources told Fastmarkets.

Rebar producers in the UAE normally announce their new prices around the 20th of each month.

#### Domestic rebar

Emirates Steel Arkan's domestic rebar price was now 2,597 dirhams (\$707) per tonne delivered Abu Dhabi, and the price for Dubai was 2,605 dirhams per tonne delivered. New prices are expected to be around \$20-30 per tonne higher than the current level, UAE market participants believe.

The company sold rebar at 2,525 dirhams per tonne ex-works, and rollers in the UAE sold rebar at 2,280-2,330 dirhams per tonne ex-works last week. No
