Estimates of tradable prices were heard at 3,000-3,050 zloty per tonne, delivered.

Fastmarkets' weekly price assessment for **steel wire rod (drawing quality), domestic, delivered Poland**, was 3,000-3,050 zloty per tonne on Thursday, unchanged week on week.

Russian steel billet prices decrease amid weak demand

By Davide Montagner - Friday 01 May

The Russian steel billet export market decreased in the week to Thursday April 30 amid reports of subdued demand and a weak ruble, sources told Fastmarkets.

Fastmarkets calculated its twice-weekly **steel billet index export, fob Black Sea, CIS** at \$480 per tonne on Thursday, down from \$482 per tonne the previous session on Tuesday April 28 but up from \$475 per tonne on April 24.

The Russian ruble came in at 74.97 per \$1 on Thursday, compared with 81.15 rubles per \$1 on March 31.

No cargo bookings were reported during the week.

In Turkey, Russia-origin steel billet was heard offered at around \$500-520 per tonne CFR, equivalent to \$470-490 per tonne FOB Black Sea. Bids were reported at around \$494-500 per tonne CFR (\$464-470 per tonne FOB).

Fresh bids from Egypt for 20,000 tonnes of billet were heard at \$490-495 per tonne FOB Black Sea for June shipment.

Meanwhile, billet import offers to Egypt were heard around \$520-545 per tonne CFR, equivalent to \$480-502 per tonne FOB. Freight to Egyptian ports was estimated at around \$40-42 per tonne.

Other FOB offers to Egypt were reported at \$477-487 per tonne during the week.

Hot-rolled coil news

US Midwest HRC index at highest in more than 2 years amid spot supply constraints

By Margie Palmer - Friday 01 May

Hot-rolled coil prices in the US rose on Friday May 1 to their highest level since January 2024, with market participants citing tight spot supply and inconsistent lead times.

Fastmarkets' daily **steel hot-rolled coil index, fob mill US Midwest** was calculated at \$53.14 per cwt (\$1,062.80 per short ton) on Friday, up by \$0.38 per cwt, or 0.72%, from \$52.76 per cwt on Thursday April 30 and up by \$0.14 per cwt, or 0.26%, from \$53.00 per cwt week on week. The US Midwest HRC spot market price range for the week moved between a low of \$52.76 per cwt on Thursday and Friday's high.

Inputs were collected in a range of \$52.50-55.00 per cwt in both the buyer and seller sub indices, representing offers and general assessments of the market.

Inputs were also rolled over in the producer sub-index to minimize day-to-day volatility.

Heard in the market

Similar to previous weeks, buyers continue to report difficulty securing tons on the spot market. Lead times have been described as inconsistent and, in some cases, unpredictable.

"There are longer wait times for replacement inventory," a distributor source said. A second distributor told Fastmarkets that prices keep rising each week "with no end in sight."

Market participants are watching whether recent increases in domestic capacity, including US Steel's restart of its blast furnace and steel shop at its Granite City location, will help alleviate buyers' pain in the short term. A spokesperson for US Steel told Fastmarkets that new production from Granite City has increased the company's ability to sell steel on spot terms.

Quote of the day

"In my opinion, lead times are such that imports will have a window to capture some orders. The direction the domestic steel mills are going with pricing is not sustainable," a Midwest source said.
