China HRC extends decline as coal supply recovers, oil prices plunge

By Cindy Shan - Tuesday 03 November

Chinese domestic spot hot-rolled coil (HRC) prices continued to fall on Tuesday November 3, as further declines in raw material prices weakened cost support, while falling oil prices added to bearish sentiment across commodity markets, sources told Fastmarkets.

Market participants said coking coal and coke futures fell by 2.53% and 1.57%, respectively, on Tuesday.

Expectations of increased domestic coal supply also weighed on coking coal prices, with the number of suspended coal mines in Shanxi falling to 40 as of November 2, from 44 a week earlier, as more mines resumed production.

Steel mills' weak profitability and cautious restocking further dampened demand for raw materials, adding to downward pressure on prices.

Meanwhile, a sharp drop in oil prices reinforced the bearish sentiment. WTI crude oil futures for December delivery closed at $96.46 per barrel on November 2, down by 7.36% on the day, amid signals from both the US and Iran that they were open to negotiations. Iran said the Strait of Hormuz could reopen within two days if the US ended its maritime blockade.

Market participants said the easing of geopolitical tensions was eroding the risk premium in oil prices. As coking coal had also benefited from the earlier rally in energy markets, the retreat in oil prices further weakened one source of support for coal and, in turn, steelmaking costs.

Domestic

Fastmarkets' daily price assessment for steel hot-rolled coil domestic, ex-whs Eastern China was 3,180-3,200 yuan ($478-481) per tonne on Tuesday, down by 10 yuan per tonne from 3,190-3,210 yuan per tonne on Monday.

Export

Fastmarkets calculated its steel hot-rolled coil index export, fob main port China at $480.47 per tonne on Tuesday, down by $1.10 from $481.57 per tonne on Monday.

Chinese HRC export prices continued to fall on Tuesday due to the downward trend in domestic prices, sources told Fastmarkets.

Small, privately owned mills were offering 3.0-3.5 mm thick, 1,250-1,500 mm wide SS400/Q235-grade HRC at $480-484 per tonne FOB on Tuesday, narrowed downward from $480-486 per tonne on Monday.

Meanwhile, the best offers for similar material from larger or state-owned mills were at around $495-500 per tonne FOB on Tuesday, unchanged from Monday, according to sources.

Green steel

Fastmarkets' assessment of flat steel reduced carbon emissions, daily inferred, exw China was 3,180-3,550 yuan per tonne on Tuesday, down by 10 yuan per tonne from 3,190-3,560 yuan per tonne on Monday.

This was assessed based on Fastmarkets' fortnightly price assessment of flat steel reduced carbon emissions differential, exw China, which calculates the premium for flat-rolled reduced carbon emissions steel over products produced from the traditional blast furnace-based route and came in at 0-350 yuan per tonne on October 23.

Shanghai Futures Exchange

The most-traded SHFE HRC January contract closed at 3,147 yuan per tonne on Tuesday, down by 9 yuan per tonne from Monday's close at 3,156 yuan per tonne, reaching its lowest level since August 2025.

Steel plate news

US domestic plate prices stay steady as plate consumption reaches peak levels

By Melissa VanDervort - Tuesday 03 November

US plate prices were stable on Tuesday November 3 as sources reported robust demand and scarce supply, with several sectors continuing to absorb plate at high levels, a trend market participants expect to persist for the foreseeable future.

Fastmarkets' weekly assessment for steel cut-to-length plate carbon grade, fob mill US was $80 per hundredweight ($1,600 per short ton) on Tuesday November 3, steady from October 27 and up by 2.56% from $78 per cwt on October 20.

Inputs were collected in a range of $72-82 per cwt, representing deals, offers and general indications of the spot market.

Demand for domestic plate remains heightened with no sign of abatement, as multiple segments continue to swiftly consume plate at record levels, according to market participants.

"Demand for plate is really good and [we] don't see a slowdown [happening] anytime soon. Data centers, border wall [construction], shipbuilding, military, storage tanks, mining, utility towers, bridge, etc.—many plate-consuming sectors [are] busy," a distributor said. "[It is the] craziest supply-side market I have seen in 31 years."

Persistently elevated demand has strained supply and depleted buyer inventory levels, while applying upward pressure on plate prices—a trend that sources expect to continue through 2027 and possibly into 2028.

"We do expect [high demand and low supply] to continue through 2027. Allocations and contracts tons are quite tight," a second distributor said.

A third distributor said, "The [supply] tightness remains and demand is strong. We are hearing the mills are out into next year. Furthermore, we expect this continues throughout next year and possibly into 2028."

"It is still a tight supply market [and] I don't see any relief in sight at the moment," a buyer said.

Lead times were at approximately six to 12 weeks.

Rebar news

China's domestic rebar prices keep dropping on weak demand, bearish sentiment

By Jessica Zong - Tuesday 03 November

China's domestic rebar prices continued to decline on Tuesday November 3 amid weak end-user demand and bearish sentiment across the ferrous supply chain.

Rainfall in parts of central and eastern China disrupted construction activity and reduced demand for rebar from end users. Buying interest in the spot market weakened further following declines in rebar futures, with buyers remaining cautious about placing orders amid expectations of further price falls.

Market participants were also increasingly bearish on the raw materials market following consecutive declines in ferrous futures contracts, adding downward pressure to sentiment in the steel market.

The most-traded January coking coal futures contract on the Dalian Commodity Exchange closed at 1,365.50 yuan ($205) per tonne on Tuesday, marking a third consecutive trading day of declines. The contract was down by 62 yuan per tonne, or 4.3%, from its close of 1,427.50 yuan per tonne on Thursday October 29.

Falling raw material futures weakened market participants' expectations of cost support for finished steel prices, while the continued decline across ferrous futures also encouraged buyers to remain on the sidelines.

Spot rebar trading activity therefore remained subdued, with end users largely purchasing only according to their immediate requirements.

Fastmarkets' daily price assessment for steel reinforcing bar (rebar), domestic, ex-whs Eastern China, was 3,050-3,060 yuan per tonne on Tuesday, down by 10 yuan per tonne from 3,060-3,070 yuan per tonne on Monday.

Billet

Fastmarkets' daily price assessment for steel billet, domestic, exw Tangshan, Northern China, was 2,850 yuan per tonne on Tuesday, down by 20 yuan per tonne from 2,870 yuan per tonne on Monday.

Shanghai Futures Exchange

The most-traded January rebar contract on the Shanghai Futures Exchange closed at 2,991 yuan per tonne on Tuesday, down by 16 yuan per tonne from 3,007 yuan per tonne on Monday.
