Cold-rolled coil news

China CRC, HDG export prices flat as weak demand meets firm costs

By Cindy Shan - Tuesday 13 October

Export prices for Chinese cold-rolled coil (CRC) and hot-dipped galvanized coil (HDG) were largely unchanged in the week to Tuesday October 13, as weak overseas demand limited buyers' willingness to accept higher offers, while firm production costs and steel mills' efforts to defend prices constrained sellers' room to cut prices, sources told Fastmarkets.

Market participants said overseas buyers remained reluctant to accept higher prices amid ample supply and subdued demand, leaving exporters under pressure to secure orders through competitive offers. Meanwhile, high zinc prices and firm hot-rolled coil feedstock costs continued to support production costs, while steel mills maintained their pricing discipline amid China's efforts to curb cut-throat competition.

With demand too weak to support higher offers and costs limiting the scope for further reductions, exporters largely kept prices near pre-holiday levels despite sluggish trading.

Cold-rolled coil

Fastmarkets' weekly price assessment for **steel cold-rolled coil, export, fob China main port**, was \$555-561 per tonne on Tuesday, narrowed downward by \$1 per tonne from \$555-562 per tonne on Tuesday September 29.

Chinese mills offered CRC exports at \$561-590 per tonne FOB China on Tuesday, up from \$560-585 per tonne FOB on Tuesday September 29.

Market participants indicated that the best offers for Chinese CRC exports could be reduced to \$555 per tonne FOB on Tuesday.

Fastmarkets' weekly price assessment for **steel cold-rolled coil, domestic, ex-whs Eastern China**, was 3,680-3,740 yuan per tonne on Friday October 9, down by 10-20 yuan per tonne from 3,700-3,750 yuan per tonne on Thursday September 24.

Hot-dipped galvanized coil

Fastmarkets' weekly price assessment for **steel galvanized coil, 1mm, export, fob main port China**, was \$590-612 per tonne on Tuesday, down by \$3 per tonne from \$593-615 per tonne on Tuesday September 29.

Fastmarkets' assessment is for HDG with zero-spangle zinc coating of 120 gsm (Z120).

Chinese mills offered HDG at \$558-567 per tonne FOB China for Z40 material, which is equivalent to \$593-612 per tonne FOB for Z120 material, according to sources.

Market participants indicated that the best offers for Z120 Chinese HDG exports came in at \$590 per tonne FOB on Tuesday.

Fastmarkets' weekly price assessment for **steel hot-dipped galvanized coil, domestic, ex-whs Eastern China**, which considers 80gsm zinc-coated zero-spangle HDG, was 3,950-4,000 yuan per tonne on Friday October 9, unchanged from Thursday September 24.

Steel plate news

US domestic steel plate prices stay steady amid robust demand, constrained supply

By Melissa VanDervort - Tuesday 13 October

US plate prices were unchanged on Tuesday October 13, one week after rising sharply following mill price increases, with sources describing continued strong demand and extremely limited spot supply levels in the domestic market.

Fastmarkets' weekly assessment for [steel cut-to-length plate carbon grade, fob mill US](#) was \$77 per hundredweight (\$1,540 per short ton) on Tuesday October 13, steady from October 6 and up by 3.36%, or \$2.50 per cwt, from \$74.50 per cwt on September 29.

Inputs were collected in a range of \$71-79 per cwt, representing offers and indications of the general spot market.

Plate demand continues to be elevated in the domestic market, while supply levels remain constrained and stock levels depleted, particularly at service centers, according to a distributor.

"Demand is still pretty decent, and service center inventories are low, [which is] creating folks scouring for metal," the distributor said. "Q4 [of 2026] will be the same story until the mills get caught up, maybe by Q1 or Q2 [of 2027] they will be. Otherwise, it is a grind out there."

A second distributor said, "Demand is great, and my indications are for this to continue into Q1 [of] 2028."

A steel buyer said, "Demand is the strongest we have seen, including the high of 2021 [and] 2022. We're running at full capacity and working to fit in urgent orders from high-priority customers. We are seeing an uptick in companies we have never sold to before approaching us for the first time. We are prioritizing our existing customer base."

As demand continues to outpace available supply, some market participants anticipate that further price increases will be announced in the near term, with the expectation that tight market conditions will persist well into 2027.

Steelmaker Nucor announced a price increase of \$60 per short ton (\$3 per cwt) on [October 1](#)—an upward price move that sources say was fully absorbed by the market.

SSAB Americas announced an identical price increase on October 5.

"Any increases are being accepted," a third distributor said.

Lead times were reported at eight to 12 weeks.

Rebar news

UAE's AGSI reports rebar carbon footprint of 139 kg CO₂e per tonne

By Hristo Rimpopov - Tuesday 13 October

United Arab Emirates-based steelmaker Arabian Gulf Steel Industries (AGSI) has reported a verified cradle-to-gate carbon footprint of 139 kg CO₂e per tonne for rebar produced at its Abu Dhabi facility, the company said on Tuesday October 13.

United Arab Emirates-based steelmaker Arabian Gulf Steel Industries (AGSI)

has reported a verified cradle-to-gate carbon footprint of 139 kg CO₂e per tonne for rebar produced at its Abu Dhabi facility, the company said on Tuesday October 13.

The figure was verified under the Environmental Product Declaration (EPD) program operated by the UK-based Certification Authority for Reinforcing Steels (CARES). AGSI's Sharjah operations recorded a carbon footprint of 218 kg CO₂e per tonne, the company said.

AGSI said the Abu Dhabi figure was below the typical 600-700 kg CO₂e per tonne for scrap-based rebar and that both its Abu Dhabi and Sharjah figures were below the nearest comparable publicly available EPD figure of 300 kg CO₂e per tonne.
