*In case of Container Cargo please add additional freight Charges USD 60 in Value (CR/HR/GP Secondary)

Chinese HRC export prices were flat on Tuesday, as the cost-driven support from previously elevated coking coal prices gradually weakened, sources told Fastmarkets.

Market participants said mills and traders were largely taking a wait-and-see approach in the short term, with limited incentive to actively adjust their offer levels.

Small, privately owned mills were offering 3.0-3.5 mm thick, 1,250-1,500 mm wide SS400/Q235-grade HRC at \$496-507 per tonne FOB on Tuesday, unchanged from Monday.

The best offers for similar material from larger, or state-owned, mills were at a base price of \$505-510 per tonne FOB on Monday, unchanged from Monday, according to sources.

Green steel

Fastmarkets' assessment of **flat steel reduced carbon emissions, daily inferred, exw China** was 3,320-3,520 yuan per tonne on Tuesday, narrowed downward by 10 yuan per tonne from 3,320-3,530 yuan per tonne on Monday.

This was assessed based on Fastmarkets' fortnightly price assessment of **flat steel reduced carbon emissions differential, exw China**, which calculates the premium for flat-rolled reduced carbon emissions steel over products produced from the traditional blast furnace-based route and came in at 0-200 yuan per tonne on Friday September 11.

Shanghai Futures Exchange

The most-traded SHFE HRC January contract closed at 3,299 yuan per tonne on Tuesday, down by 9 yuan from Monday's close at 3,308 yuan per tonne.

Steel plate news

US domestic plate prices stay stable amid strong demand, tight supply conditions

By Melissa VanDervort - Tuesday 22 September

US steel plate prices were steady on Tuesday September 22, with sources continuing to report elevated demand and very limited spot availability in the domestic plate market.

Fastmarkets' weekly assessment for [steel cut-to-length plate carbon grade, fob mill US](#) was \$74 per hundredweight (cwt) (\$1,480 per short ton) on Tuesday September 22, steady since rising by 1.37%, or by \$1.00 per cwt, from \$73 per cwt on August 11.

Inputs were collected in a range of \$69-75 per cwt, representing offers and general indications of the spot market.

Plate demand remains strong as the third quarter comes to a close, with sources expecting the high demand environment to continue well into next year.

"Demand [is] good, supply [is] tight, [and the] market looks to be like this for the foreseeable future," a distributor said.

A second distributor shared a similar sentiment, saying, "Overall everyone is really busy, and my projections are showing it will continue for all of 2027, and 2028 looks encouraging now also. Times are good for the steel industry."

Spot supply continues to be very tight to non-existent, and some mills have closed their order books for the balance of the year, according to market participants.

Current and upcoming planned outages will further strain supply, and some sources are anticipating price increases in the near term, citing robust demand.

"Plate [supply] is very tight with very few spot transactions. Outages will keep it very tight," a third distributor said. "We expect it will continue through

[the] first half of next year."

A fourth distributor agreed, saying, "The market remains hot and we expect another round of [price] increases soon. This looks to continue deep into 2027."

A buyer said they expect tight conditions to persist in the last quarter of the year.

"I think buyers are going to have a very difficult fourth quarter if they don't work very hard to get some tons on the ground," the buyer said.

Lead times were at eight to 12 weeks.
